

## MTZ Clinical Research Sp. z o.o.

is a leading Polish contract research organization (CRO) with vast experience in trials with medicinal products, medical devices and dietary supplements.

The company has its own Clinical Research Site, including a certified medical analysis laboratory, a laboratory for biological sample processing and a registered pharmacy for storage and preparation of drugs.

MTZ Clinical Research (MTZ) underwent 50 international audits and 2 inspections conducted by the Polish Office for Registration of Medicinal Products, Medical Devices and Biocidal Products.

Over 5000 randomized subjects, both healthy volunteers and patients, recruited mostly from the own registered database ([www.ciekawebadania.pl](http://www.ciekawebadania.pl)) have participated in clinical studies conducted at MTZ.

### MTZ has conducted 200 clinical trials of:

- ▶ Biosimilar products
- ▶ Bioavailability and bioequivalence (BA/BE)
- ▶ Early phases (I, II, II b)
- ▶ Phase III – as a highly specialized Clinical Research Site
